# **Technical data**

#### Basic data

| Series      | MLC 500                |
|-------------|------------------------|
| Device type | Transmitter            |
| Contains    | 2x BT-NC sliding block |
| Application | Hand protection        |
| Functions   |                        |

Functions

Range reduction Transmission channel changeover

#### **Characteristic parameters**

| Туре                        | 4, IEC/EN 61496          |
|-----------------------------|--------------------------|
| SIL                         | 3, IEC 61508             |
| SILCL                       | 3, IEC/EN 62061          |
| Mission time T <sub>M</sub> | 20 years, EN ISO 13849-1 |

30 mm

900 mm 0 ... 10 m

#### **Protective field data**

Resolution Protective field height Operating range

#### **Optical data**

| Synchronization          | Optical between transmitter and receiver  |
|--------------------------|---|
| Light source             | LED, Infrared                             |
| LED light wavelength     | 940 nm                                    |
| Transmitted-signal shape | Pulsed                                    |
| LED risk group           | Exempt group (in acc. with EN 62471:2008) |

#### **Electrical data**

| Protective circuit                 | Overvoltage protection  |
|------------------------------------|-------------------------|
|                                    | Short circuit protected |
|                                    |                         |
| Performance data                   |                         |
| Supply voltage U <sub>B</sub>      | 24 V, DC, -20 20 %      |
| Current consumption, max.          | 50 mA                   |
| Fuse                               | 2 A semi time-lag       |
|                                    |                         |
| Inputs                             |                         |
| Number of digital switching inputs | 1 Piece(s)              |
|                                    |                         |
| Switching inputs                   |                         |
| Туре                               | Digital switching input |
| Switching voltage high, min.       | 18 V                    |
| Switching voltage low, max.        | 2.5 V                   |
| Switching voltage, typ.            | 22.5 V                  |
| Voltage type                       | DC                      |
|                                    |                         |

# **Dimensioned drawings**

All dimensions in millimeters

#### Calculation of the effective protective field height $H_{PFE} = H_{PFN} + B + C$

 $H_{PFE}$  Effective protective field height = 928 mm

 $H_{PFN}$  Nominal protective field height = 900 mm

A Total height = 966 mm

B 19 mm

C 9 mm R Effecti

Effective protective field height H<sub>PFE</sub> goes beyond the dimensions of the optics area to the outer borders of the circles labeled with R.

# **Electrical connection**
