Minimum and maximum value depend on measurement distance

- Same object, identical environmental conditions, measurement object ≥ 50x50mm²
- Typ.  $\pm$  0.02 %/K
- The push-pull switching outputs must not be connected in parallel
- 1=transient protection, 2=polarity reversal protection, 3=short circuit protection for all outputs Rating voltage 250VAC, with cover closed

IP 69K test acc. to DIN 40050 part 9 simulated, high pressure cleaning conditions without the use of additives. Acids and bases are not part of the test.
