Dimensions

#### CE c US

### **Model Number**

# ML8-55/25/103/143

Retroreflective sensor with 4-pin, M8 x 1 connector

#### **Features**

- Cost-optimized series for standard ٠ tasks
- Miniature design ٠
- Tamper-proof, no operating controls •
- Yellow LED indicator behind the front • panel
- Flexible use with versatile mounting • opportunities

#### **Product information**

Small, robust and reliable, the ML8 series of miniature sensors is particularly suitable for non-contact detection of objects in confined spaces. The LED indicator is located behind the lens and provides reliable information on the sensor's operating status. The LED is always visible, even if the sensor is completely embedded. Flexible mounting options and fixed preset detection ranges simplify setup and operation.

#### **Electrical connection**
