Light Curtain
for Measuring Tasks

OEEB103U0135

Part Number

- **360° visible switching status display**
- **Graphical display for easy operation**
- **Integrated evaluation unit**
- **Object detection and measurement**

As these light curtains for measurement tasks are equipped with an integrated evaluation unit, external connection units are not needed. Objects are both recognized (via the digital output) and measured (via the analog output). The light curtains can be set up easily using the menu-controlled graphic display. Convenient parametrization and quick diagnosis is possible via the IO-Link interface.
