Lighted Touch Button with Bipolar Outputs

- Rugged, cost-effective, and easy-to-install touch button with multicolor light
- Momentary versions remain activated as long as touch is present
- Latching versions start up not activated and toggle between activated and not activated on successive touches
- Waterproof IP69K construction for washdown environments
- Ergonomically designed to eliminate hand, wrist, and arm stresses associated with repeated switch operation; require no physical force to operate
- Can be actuated with bare hands or in gloves
- 12 V to 30 V operation

WARNING: Not To Be Used for Personnel Protection

Never use this device as a sensing device for personnel **protection**. Doing so could lead to serious injury or death. This device does not include the self-checking redundant circuitry necessary to allow its use in personnel safety applications. A sensor failure or malfunction can cause either an energized or de-energized sensor output condition.

¹ 5-pin integral QD models only are listed.

- To order the 5-pin 150 mm (5.9 in) Euro-style PVC pigtail models, replace suffix Q with QP in model number (example, K50ALBTXGHQP).
- To order the 2 m (6.5 ft) cable models, omit suffix Q from model number (example, K50ALBTXGH).
- A model with a QD requires a mating cable (see [Cordsets](#) on page 3).
