### **Technical data**

#### **Basic data**

| Series      | MLC 520S                        |
|-------------|---------------------------------|
| Device type | Set (transmitter and receiver)  |
| Contains    | 4x BT-MLC-S-C mounting brackets |
|             | 4x BT-MLC-S-O mounting brackets |
| Application | Finger protection               |
| Functions   |                                 |
| Functions   | Automatic start/restart         |

Contactor monitoring (EDM) Start/restart interlock (RES)

Functions

#### **Characteristic parameters**

| Туре                        | 4, IEC/EN 61496          |
|-----------------------------|--------------------------|
| SIL                         | 3, IEC 61508             |
| SILCL                       | 3, IEC/EN 62061          |
| Performance Level (PL)      | e, EN ISO 13849-1        |
| PFH <sub>D</sub>            | 2,64E-09 per hour        |
| Mission time T <sub>M</sub> | 20 years, EN ISO 13849-1 |
| Category                    | 4, EN ISO 13849          |

14 mm 210 mm 0.2 ... 6 m

#### **Protective field data**

| Resolution              |
|-------------------------|
| Protective field height |
| Operating range         |

#### **Optical data**

| Number of beams          | 21 Piece(s)                               |
|--------------------------|---|
| Synchronization          | Optical between transmitter and receiver  |
| Light source             | LED, Infrared                             |
| LED light wavelength     | 850 nm                                    |
| Transmitted-signal shape | Pulsed                                    |
| LED risk group           | Exempt group (in acc. with EN 62471:2008) |

#### **Electrical data**

**Protective circuit** Overvoltage protection Short circuit protected Performance data Supply voltage U<sub>B</sub> 24 V, DC, -20 ... 20 %

#### Outputs

Number of safety-related switching 2 Piece(s) outputs (OSSDs)

| Switching voltage high, min.   18 V     Switching voltage low, max.   2.5 V     Switching voltage, typ.   22.5 V     Voltage type   DC     Load inductivity   2,000 μH     Load capacity   1 μF     Residual current, max.   200 mA | Safety-related switching outputs |                                      |  |
|---|----------------------------------|--------------------------------------|--|
| Switching voltage low, max. 2.5 V   Switching voltage, typ. 22.5 V   Voltage type DC   Load inductivity 2,000 µH   Load capacity 1 µF   Residual current, max. 200 mA   | Туре                             | Safety-related switching output OSSD |  |
| Switching voltage typ. 22.5 V   Voltage type DC   Load inductivity 2,000 μH   Load capacity 1 μF   Residual current, max. 200 mA  | Switching voltage high, min.     | 18 V                                 |  |
| Voltage type     DC       Load inductivity     2,000 μH       Load capacity     1 μF       Residual current, max.     200 mA  | Switching voltage low, max.      | 2.5 V                                |  |
| Load inductivity     2,000 μH       Load capacity     1 μF       Residual current, max.     200 mA  | Switching voltage, typ.          | 22.5 V                               |  |
| Load capacity1 μFResidual current, max.200 mA   | Voltage type                     | DC                                   |  |
| Residual current, max. 200 mA   | Load inductivity                 | 2,000 µH                             |  |
|   | Load capacity                    | 1 µF                                 |  |
|   | Residual current, max.           | 200 mA                               |  |
| Residual current, typ. 2 mA   | Residual current, typ.           | 2 mA                                 |  |

#### Safety-related switching output 1

Assignment Switching element Receiver device connection, pin 2 Transistor, PNP

| Assignment  | Receiver device connection, pin 4  |
