

Model Number

OBT30-R3F-E0-L

Laser triangulation sensor with background suppression with 2 m fixed cable

Features

- · Very flat design for direct mounting without mounting bracket
- ٠ DuraBeam Laser Sensors - durable and employable like an LED
- ٠ Small parts detection from 0.05 mm
- Highly visible light spot, even on dark • materials
- Extremely small light spot for very • high switching point accuracy
- Precision object detection, almost • irrespective of the color

- The irradiation can lead to irritation especially in a dark environment. Do not point at people! Maintenance and repairs should only be carried out by authorized service personnel! ٠
- . Attach the device so that the warning is clearly visible and readable.
- The warning accompanies the device and should be attached in immediate proximity to the device. ٠
- Caution Use of controls or adjustments or performance of procedures other than those specified herein may result in hazardous radiation exposure.
