

Safety light grid

Dimensions

Technical Data

Release date: 2020-08-27 Date of issue: 2020-08-27 Filename: 114425_eng.pdf

• •	
System components	
Transceiver	SLP8-2-A
Mirror pillar	SLP8-2-M
General specifications	
Effective detection range	0.2 8 m
Light source	LED
Light type	modulated visible red light
Tests	IEC/EN 61496
Safety type according to IEC/EN 61496	4
Marking	CE

Pre-fault indicator Functional display flashing	
Electrical specifications	
Operating voltage U _B Power supply via control unit	
Protection class III, IEC 61140	
Conformity	
Functional safety ISO 13849-1	
Product standard EN 61496-1 ; IEC 61496-2	
Approvals and certificates	
CE conformity CE	
Approvals TÜV SÜD	
Ambient conditions	
Ambient temperature -20 60 °C (-4 140 °F)	
Storage temperature -20 70 °C (-4 158 °F)	
Relative humidity max. 95 %, not condensing	
Mechanical specifications	
Degree of protection IP65	
Connection M16 cable gland , terminal compartment	
Connection options Further electrical connection options on request: Connector DIN 43 651 Hirschmann, emitter: 6-pin+PE, rece	eiver: 11-pin+PE
Material	
Housing extruded aluminum profile, RAL 1021 (yellow) coated	
Optical face Plastic pane	
Mass Per 2100 g

Application

The SLP8-2-A and SLP8-2-M devices can be used to set up dual-beam access protection with a fixed beam gap of 500 mm in accordance with EN 999. The SLP8-2-A profile comprises a light source and a light receiver (active). This device must be connected to the SLVA-4K+ and SLVA-8K evaluation units or to SB4-series switching devices. The SLP8-2-A cannot be operated without an evaluation unit.

The SLP8-2-M profile includes two reflecting mirrors arranged in such a way that the light beam emitted from the transmitter on the SLP8-2-A is returned at a distance of 500 mm and is picked up by the receiver on the SLP8-2-A.

This safety thru-beam sensor system may only be used in accordance with its intended purpose as an **a**ctive opto-electronic **p**rotective **d**evice (AOPD) for securing hazardous areas.

If used for any other purpose, the intended function of the system cannot be guaranteed.

The applicable safety regulations, standards and provisions must be observed when operating the system, and the specific requirements of the application in question must be taken into consideration.

Accessories

Additional accessories can be found in the Internet.
