GLV18-55-G/25/102/115

Retroreflective sensor with 2 m fixed cable

Features

- Efficient Line in a short M18 plastic ٠ housing for standard applications
- Two devices in one: choice of either ٠ clear object detection or retroreflective operating mode with a large detection range
- 4 LEDs indicator for 360° visibility ٠
- Optimized potentiometer design for a ٠ clear control button layout in the application
- DC voltage version

Product information

The GLV/GLK18 series sensors help improve the efficiency of machines and systems. The design of the M18 plastic housing, the connection technology, and sensor properties are highly standardized. Concentrating on the key sensor requirements has produced a robust and reliable product series for DC and AC/DC voltage systems without any overengineering. The mounting set included in the scope of delivery and the optimized potentiometer design ensure fast assembly and easy configuration.
