Technical data

Basic data

Basic data	
Series	BCL 95
Functions	
Functions	Alignment mode
	AutoConfig
	I/O
	LED indicator
	Multiple read / MultiScan
	Output format selectable
	Reading gate control
	Reference code comparison
lead data	
ode types, readable	2/5 Interleaved
	Codabar
	Code 128
	Code 32
	Code 39
	Code 93
	EAN 128
	EAN 8/13
	EAN Addendum
	EAN/UPC
	Pharmacode (available upon consulta- tion)
	UPC-A
	UPC-E
anning rate, typical	600 scans/s
ptical data	
eading distance	25 170 mm
ght source	Laser, Red
aser light wavelength	655 nm
aser class	1 acc. to IEC 60825-1:2014 (EN 60825- 1:2014)2 acc. to IEC 60825-1:2007 (EN 60825-1:2007)
ransmitted-signal shape	Continuous
sable opening angle (reading field pening)	66 °
lodulus size	0.15 0.5 mm
eading method	Line scanner
canning rate	600 scans/s
eam deflection	Via rotating polygon wheel
ight beam exit	Lateral
lectrical data	
rotective circuit	Short circuit protected
Performance data	
Supply voltage U _B	4.75 5.5 V, DC
Current consumption, max.	450 mA
Inputs	
Number of digital switching inputs	1 Diago(a)

Outputs	
Number of digital switching outp	puts 1 Piece(s)
0 1 1 1 1 1	
Switching outputs Voltage type	DC
	5 30 V DC, 20 mA
Switching voltage	5 30 V DC, 20 MA
Switching output 1 Switching element	Transistor NDN
Function	Transistor, NPN
Function	configurable
nterface	50.000
Гуре	RS 232
RS 232	
Function	Process
Transmission speed	4,800 57,600 Bd
Data format	Adjustable
Start bit	1
Data bit	7,8
Stop bit	1.2
Parity	Adjustable
Transmission protocol	Adjustable
Data encoding	ASCII
	HEX
Service interface	
Гуре	RS 232
RS 232	
Function	Service
Connection

Environmental data

Ambient temperature, operation	5 40 °C
Ambient temperature, storage	-20 60 °C
Relative humidity (non-condensing)	0 90 %
Extraneous light protection, max.	2,000 lx

Certifications

Degree of protection	IP 54
Protection class	III
Certifications	c UL US
Test procedure for EMC in accordance	EN 61326-1:2013-01
with standard	FCC 15-CFR 47 Part 15 (09-07-2015) Limits Class B
Test procedure for shock in accordance with standard	IEC 60068-2-27, test Ea
Test procedure for vibration in accordance with standard	IEC 60068-2-6, test Fc

Classification

Customs tariff number	84719000
eCl@ss 8.0	27280102
eCl@ss 9.0	27280102
ETIM 5.0	EC002550
ETIM 6.0	EC002550

Dimensioned drawings

All dimensions in millimeters

M3/6deep-

- B1 Decode LED
- B2 Status LED
- BZ Status LED
- NOTE For exact positioning of the laser beam in the application, the scanner must be aligned.

Electrical connection

Connection 1

Function	Data interface
	Signal IN
	Signal OUT
	Voltage supply
Type of connection	Cable
Cable length	2,000 mm
Sheathing material	PVC
Cable color	Black
Number of conductors	6 -wire
Wire cross section	0.081 mm ²

Electrical connection

Notes

Observe intended use!
this product is not a safety sensor and is not intended as personnel protection.
✤ The product may only be put into operation by competent persons.
∜ Only use the product in accordance with its intended use.

For UL applications:

& For UL applications, use is only permitted in Class 2 circuits in accordance with the NEC (National Electric Code).

WARNING! LASER RADIATION - CLASS 1 LASER PRODUCT

The device satisfies the requirements of IEC 60825-1:2014 (EN 60825-1:2014) safety regulations for a product of laser class 1

- b Observe the applicable statutory and local laser protection regulations.
- The device must not be tampered with and must not be changed in any way. There are no user-serviceable parts inside the device.
 Description must early be performed by Leura electronic Complete Co. KC.
- Repairs must only be performed by Leuze electronic GmbH + Co. KG.

WARNING! LASER RADIATION - CLASS 2 LASER PRODUCT

Do not stare into beam!

The device satisfies the requirements of IEC 60825-1:2007 (EN 60825-1:2007) safety regulations for a product of laser class 2 as well as the U.S. 21 CFR 1040.10 regulations with deviations corresponding to "Laser Notice No. 50" from June 24, 2007.

- b Never look directly into the laser beam or in the direction of reflected laser beams! If you look into the beam path over a longer time period, there is a risk of injury to the retina.
- $\ensuremath{\mathfrak{B}}$ Do not point the laser beam of the device at persons!
- 🗞 Interrupt the laser beam using a non-transparent, non-reflective object if the laser beam is accidentally directed towards a person.
- & When mounting and aligning the device, avoid reflections of the laser beam off reflective surfaces!
- CAUTION! Use of controls or adjustments or performance of procedures other than specified herein may result in hazardous light exposure. The glass optics cover is the only aperture through which laser radiation may be observed on this product.
- ♦ Observe the applicable statutory and local laser protection regulations.
- The device must not be tampered with and must not be changed in any way.
 There are no user-serviceable parts inside the device.
 Repairs must only be performed by Leuze electronic GmbH + Co. KG.

Notes

Leuze

Affix laser information and warning signs!

- Laser information and warning signs are affixed to the device. In addition, self-adhesive laser information and warning signs (stick-on labels) are supplied in several languages.
- Affix the laser information sheet to the device in the language appropriate for the place of use. When using the device in the US, use the stick-on label with the "Complies with 21 CFR 1040.10" note.
- Affix the laser information and warning signs near the device if no signs are attached to the device (e.g. because the device is too small) or if the attached laser information and warning signs are concealed due to the installation position.
- Affix the laser information and warning signs so that they are legible without exposing the reader to the laser radiation of the device or other optical radiation.

WARNING!

If the scanner motor fails during the emission of laser radiation, the limit value of laser class 2 in accordance with IEC 60825-1 Edition 2.0 (2007) and Edition 3.0 (2014) could be exceeded. The device has safeguards to prevent this occurrence.

If the emitted laser beam is at a standstill, immediately disconnect the faulty bar code reader from the voltage supply.

The BCL 95 emits scanned optical radiation at a wavelength of 655 nm (red). Looking at the device's mirror and operating at the lowest scanning rate (400 scans/s) at a viewing distance of 65 mm results in pulses with a pulse duration of 120 µs on the retina of the eye. The total pulse peak power at the exit window is less than 2.1 mW. The average laser power is, thus, less than 1 mW, corresponding to laser class 2 in accordance with EN 60825-1, Edition 2.0 (2007) and IEC 60825-1, Edition 2.0 (2007) and IEC 60825-1, Edition 3.0 (2014).

Accessories

Y

Mounting technology - Mounting brackets

	Part no.	Designation	Article	Description
5.	50118542	BT 200M.5	Mounting bracket	Design of mounting device: Angle, L-shape Fastening, at system: Through-hole mounting Mounting bracket, at device: Screw type, Suited for M3 screws Type of mounting device: Adjustable Material: Stainless steel

Mounting technology - Rod mounts

 Part no.	Designation	Article	Description
 50119331	BTU 900M-D12	Mounting system	Design of mounting device: Mounting system Fastening, at system: For 12 mm rod, Sheet-metal mounting Mounting bracket, at device: Screw type Type of mounting device: Clampable, Swiveling, Turning, 360° Material: Metal

Note

A list with all available accessories can be found on the Leuze website in the Download tab of the article detailed page.
