

Protection Column with Protective Screen

Z2SS003

Part Number

- **Effective protection against mechanical damage**
- **Flexible installation: install on the ground or walls**
- **Integrated nut for muting sets**
- **Simple alignment via innovative mounting bracket**

The protection column with protective disc provides safety light curtains and safety light arrays with reliable protection against bumps, collisions, and machines. Various mounting systems make it possible to install this protective equipment in a number of ways. A free-standing setup is possible using the ground mount of Type ZMBSZ0001. The wall mount of Type ZMBSZ0002 is suitable for horizontal setups. Axial or vertical alignment in just a few turns of your hand thanks to the sophisticated mounting technology and integrated level. One nut on the protection column simplifies installation and alignment of the various muting sets.

Technical Data

Mechanical Data

Housing Material	Aluminum
Disc Material	Polycarbonate
Cable Outlet	bottom/top
Mounting Space (EBR)	2153 mm

Suitable Mounting Technology No. **710** **770** **780**

Mounting Bracket, Floor or Wall Mounting are required for mounting (not included in delivery)
