## **Temperature Sensor**

## FXDD101

Part Number

**we**Flux<sup>2</sup> **Inox**Sens

## **Technical Data**

| Sensor-specific data              |                      |
|-----------------------------------|----------------------|
| Sensor element                    | PT1000, Class B      |
| Temperature Measurement Range     | -50200 °C            |
| Medium                            | Liquids, gases       |
| Response Time                     | <2s                  |
| Environmental conditions          |                      |
| Temperature of medium             | -50200 °C            |
| Ambient temperature               | -2580 °C             |
| Storage temperature               | -2580 °C             |
| Pressure Resistance               | 100 bar              |
| Shock Resistance                  | IEC 60751            |
| Vibration resistance              | IEC 60751            |
| Mechanical Data                   |                      |
| Housing Material                  | 1.4404               |
| Material in contact with media    | 1.4404               |
| Degree of Protection              | IP68/IP69K *         |
| Connection                        | M12 × 1; 4-pin       |
| Process Connection                | Cutting/locking ring |
| Process Connection Length (PCL)   | 59 mm                |
| Probe Length (PL)                 | 50 mm                |
| Safety-relevant Data              |                      |
| MTTFd (EN ISO 13849-1)            | 31062,7 a            |
| PT1000                            | •                    |
| Connection Diagram No.            | 140                  |
| Suitable Connection Equipment No. | 2                    |
| Suitable Mounting Technology No.  | 907 908              |
|                                   |                      |

\* Tested by wenglor

- FDA compliant
- Response time T90: < 2 seconds
- Robust stainless steel housing with IP69K
- Temperature measuring range: -50 ... +200° C

weFlux² Temperature Sensors ensure precise temperature measurement of liquids and gases in closed piping systems. It's easy to incorporate the standardized PT100/PT1000 resistance value into the controller. The compact housing with a diameter of just 27 mm is made of V4A stainless steel and features an easy-to-clean surface. Thanks to their rugged housing and functional design, the Temperature Sensors are FDA compliant.

## **Complementary Products**

ZH6C00x Adapter to G1/4"
