

#### Indicative image

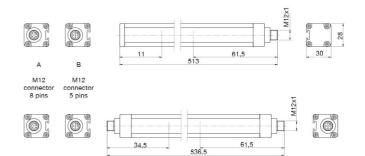

# LIGHT CURTAINS TYPE 4 ACCORDING TO IEC 61496-1 AND IEC 61496-2

- Compact housing (28 x 30 mm) and no dead zone on cap side
- Resolution 14 mm for finger protection, 20, 30, 40 mm for hand protection, 50, 90 mm for presence control and 2, 3, 4 beams for body protection/access control
- Controlled distance up to: 3, 4, 6, 10, 12 m
- Base, Standard versions and Master, Slave version to connect up to 3 sets in cascade configuration
- Selectable Automatic/Manual Restart and EDM integrated functions (Standard models)
- Selectable controlled distance
- IP69K protection models (LS4\_K) and models with integrated heating system to reach -25°C operating temperature (LS4\_H)
- Standard M12 da 5 and 8 poles connectors

#### **Detection properties**

| Nominal sensing distance | ≤ 6m  |  |
|--------------------------|-------|--|
| Resolution               | 14mm  |  |
| controlled height        | 460mm |  |
| number of rays           | 45    |  |
| Effective Aperture Angle | ±5°   |  |

Emitter + Receiver

#### **Application**

Function Principle

| Available functions                               | Automatic Restart                            |
|---------------------------------------------------|----------------------------------------------|
| Safety parameters                                 |                                              |
| Туре                                              | 4                                            |
| SIL                                               | 3                                            |
| SILCL                                             | 3                                            |
| PL                                                | е                                            |
| PFHd                                              | 1,52E-08                                     |
| Dcavg                                             | 94,50%                                       |

| CFF                                               | 80%                                          |
| Outputs                                           |                                              |
| Output type                                       | 2 x PNP-N0 (OSSD safety output)              |
| Response time                                     | 7,5                                          |
| Electrical data                                   |                                              |
| Operating Voltage                                 | 19,2 28,8 Vcc                                |
| Load current                                      | ≤ 400mA                                      |
| Time delay before availability                    | 2s                                           |
| Interference to external light                    | according to IEC 61496-2                     |
| Power Consumption - Receiver                      | 2W (no load)                                 |
| Power Consumption - Emitter                       | 1W                                           |
| Equivalent Resistive Load                         | ≥ 60 Ω                                       |
| Capacitive Load                                   | ≥ 0,82 µF                                    |
| Cabel Length (Power Supply/Output)                | ≤100m                                        |
| Cable Length for Master Slave<br>Interconnections | ≤50m                                         |
| Mechanical data                                   |                                              |
| Dimensions                                        | 28mm (front) x 30mm                          |
| Connections                                       | M12-5 poles (emitter) M12-5 poles (receiver) |
| Operating temperature                             | -10°C ÷ +55°C (no condensation)              |
| Storage temperature                               | -25°C ÷ +70°C (no condensation)              |
| humidity                                          | 95% (no condensation)                        |
| Test/Approvals                                    |                                              |
| Approvals                                         | CE, cULus, TÜV                               |
| EMC compatibility                                 | According to 2014/30/EU Directive            |
| Shocks and vibrations                             | according to IEC 61496-1                     |

IP65, IP67

Degree of protection

Supplied Accessories ST 204 4S

#### **Generical Data**

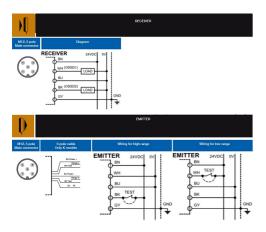

Dimensions 28mm (front) x 30mm

Operating Temperature  $-10^{\circ}\text{C} \div +55^{\circ}\text{C}$  (no condensation)

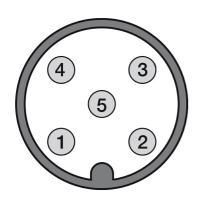

Humidity 95% (no condensation)

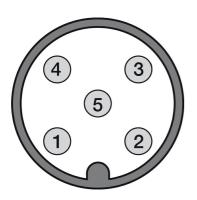

Mechanical Protection IP65, IP67
