Diffuse reflection principle with back-

ground suppression

# **Technical data**

### **Basic data**

Series **Operating principle** 

## **Optical data**

| Black-white error                    | < 10% up to 250 mm         |
|--------------------------------------|----------------------------|
| Operating range                      | Guaranteed operating range |
| Operating range, white 90%           | 0.005 0.6 m                |
| Operating range, gray 18%            | 0.015 0.45 m               |
| Operating range, black 6%            | 0.02 0.3 m                 |
| Operating range limit                | Typical operating range    |
| Operating range limit                | 0.005 0.6 m                |
| Adjustment range                     | 50 600 mm                  |
| Beam path                            | Collimated                 |
| Light source                         | Laser, Red                 |
| Laser light wavelength               | 650 nm                     |
| Laser class                          | 1, IEC/EN 60825-1:2007     |
| Transmitted-signal shape             | Pulsed                     |
| Pulse duration                       | 4.5 µs                     |
| Light spot size [at sensor distance] | 3 mm x 5 mm [1,000 mm]     |
| Type of light spot geometry          | elliptic                   |
| Shift angle                          | Typ. ± 1.5°                |
|                                      |                            |

### **Electrical data**

Protective circuit

Polarity reversal protection Short circuit protected

| Performance data              |
|-------------------------------|
| Supply voltage U <sub>B</sub> |
| Residual ripple               |
| Open-circuit current          |

10 ... 30 V, DC, Incl. residual ripple

0 ... 15 %, From U<sub>B</sub> 0 ... 20 mA

#### Outputs

Number of digital switching outputs 2 Piece(s)

| Switching outputs       |                               |
|-------------------------|-------------------------------|
| Voltage type            | DC                            |
| Switching current, max. | 100 mA                        |
| Switching voltage       | high: ≥(U <sub>B</sub> -2.5V) |
|                         | low: ≤2.5V                    |
|                         |                               |
| Switching output 1      |                               |
| Assignment              | Connection 1, pin 4           |
| Switching element       | Transistor, PNP               |
| Switching principle     | Light switching               |
|                         |                               |
| Switching output 2      |                               |
| Assignment              | Connection 1, pin 2           |
| Switching element       | Transistor, PNP               |
| Switching principle     | Dark switching                |

## Timing

| Switching frequency | 2,500 Hz |
|---------------------|----------|
| Response time       | 0.2 ms   |
| Readiness delay     | 300 ms   |

## Connection

| Connection 1       |                |
|--------------------|----------------|
| Function           | Signal OUT     |
|                    | Voltage supply |
| Type of connection | Connector      |
| Thread size        | M8             |
| Туре               | Male           |
| Material           | PUR            |
| No. of pins        | 4 -pin         |

#### **Mechanical data**

| Dimension (W x H x L)      | 15 mm x 42.7 mm x 30 mm              |
|----------------------------|--------------------------------------|
| Housing material           | Plastic, ABS                         |
| Lens cover material        | Plastic                              |
| Net weight                 | 22 g                                 |
| Housing color              | Red                                  |
| Type of fastening          | Through-hole mounting with M4 thread |
|                            | Via optional mounting device         |
| Compatibility of materials | ECOLAB                               |

### **Operation and display**

| Type of display                     | LED                     |
|-------------------------------------|-------------------------|
| Number of LEDs                      | 2 Piece(s)              |
| Operational controls                | Multiturn potentiometer |
| Function of the operational control | Range adjustment        |

#### **Environmental data**

| Ambient temperature, operation | -40 60 °C |
|--------------------------------|-----------|
| Ambient temperature, storage   | -40 70 °C |

### Certifications

| Degree of protection | IP 67         |
|----------------------|---------------|
|                      | IP 69K        |
| Protection class     | III           |
| Certifications       | c UL US       |
| Standards applied    | IEC 60947-5-2 |
|                      |               |

## Classification

For UL applications:

## WARNING! LASER RADIATION - CLASS 1 LASER PRODUCT

The device satisfies the requirements of IEC 60825-1:2007 (EN 60825-1:2007) safety regulations for a product of laser class 1 as well as the U.S. 21 CFR 1040.10 regulations with deviations corresponding to "Laser Notice No. 50" from June 24, 2007.

🗞 These proximity switches shall be used with UL Listed Cable assemblies rated 30V, 0.5A min, in the field installation, or equivalent (categories: CYJV/

Observe the applicable statutory and local laser protection regulations.

b The device must not be tampered with and must not be changed in any way.

There are no user-serviceable parts inside the device.

Repairs must only be performed by Leuze electronic GmbH + Co. KG.

# **Further information**

- Light source: Average life expectancy 50,000 h at an ambient temperature of 25 °C
- Sum of the output currents for both outputs 100 mA
